

Industry Page Template (Reusable Layout)

Purpose

This template should be used for every industry page on the website.

Examples include:

- Beauty Industry
- Cleaning Companies
- Construction
- Landscaping
- Contractors
- Dental Clinics
- Medical Clinics
- Accounting Firms
- Auto Repair
- Future industries

These pages serve multiple purposes:

- Organic SEO landing pages
- Google Ads landing pages
- Meta Ads landing pages
- High-converting sales pages

Every industry page should use the exact same layout.

Only the content should change.

This makes the website scalable while maintaining a consistent user experience.

Section 1 — Hero

Left Side

Industry-specific headline.

Example:

Digital Growth Solutions for Beauty Businesses

Supporting text:

We help beauty businesses generate more qualified leads, automate customer communication, improve local visibility, and build long-term digital growth systems.

Primary CTA

Book a Free Growth Analysis

Secondary CTA

See Our Case Studies

Right Side

Large premium image representing the industry.

Use authentic photography.

Avoid generic stock photos whenever possible.

Section 2 — Who We Help

Explain exactly who this page is for.

Example for Beauty Industry:

We work with:

- Hair Salons
- PMU Studios
- Lash Studios
- Brow Studios
- Nail Salons
- Skin Clinics
- Aesthetic Clinics

Each item should include a small icon.

Section 3 — Common Challenges

This section should immediately make the visitor recognize their own business.

Example:

Challenges Beauty Businesses Face

- Strong local competition
- Inconsistent bookings
- Low Google visibility
- Manual customer communication
- Few online reviews
- Outdated website
- No follow-up system

Use a clean card layout.

Section 4 — How Framkant Nordic Helps

Present solutions—not services.

Example:

We help beauty businesses by creating complete digital growth systems that include:

- High-converting websites
- Local SEO
- CRM
- Booking integrations
- Marketing automation
- AI-powered customer communication
- Review generation
- Analytics & reporting

Focus on business outcomes.

Not technical features.

Section 5 — Our Growth System

Display the same ecosystem diagram used throughout the website.

Website

CRM

Automation

Lead Management

Growth

Highlight where the current industry benefits from the system.

Section 6 — Business Case

Every industry page should include at least one relevant case study.

Layout:

Client

Challenge

Solution

Results

This section should remain visually identical across all industries.

Only the content changes.

Section 7 — Why Businesses Choose Framkant Nordic

Display four value cards.

Examples:

One Digital Growth Partner

No need to manage multiple suppliers.

Long-Term Strategy

We optimize continuously—not just during launch.

Complete Digital Systems

Every part of your digital presence works together.

Measurable Results

Every improvement is tracked and continuously optimized.

Section 8 — Frequently Asked Questions

Industry-specific FAQ.

Example:

- How long does implementation take?
- Can you work with my existing website?
- Do I need a CRM?
- How quickly can I expect results?

- Is this suitable for small businesses?

The layout should remain identical across all industry pages.

Section 9 — Related Services

Recommend services relevant to this industry.

Example for Beauty:

- Website Design
- Local SEO
- CRM
- Review Management
- Marketing Automation

Each service should link to its dedicated service page.

This strengthens internal linking and improves SEO.

Section 10 — Final CTA

Ready to Grow Your Business?

Let's build a digital growth system tailored to your business.

Primary CTA

Include a simple contact form.

Design Guidelines

Every industry page should use the same visual structure.

Keep consistent:

- Hero layout
- Typography
- Cards
- Buttons
- Section spacing
- Icons
- CTA placement
- Animations
- White space

Only these elements should change:

- Industry name
 - Copy
 - Images
 - Business types
 - Challenges
 - Case study
 - FAQ
 - Industry-specific examples
-

Scalability

The developer should build this as a reusable page template.

Creating a new industry page should only require replacing:

- Headline
- Images
- Industry-specific copy
- Business examples
- Case study
- FAQ

Everything else should remain identical.

This allows Framkant Nordic to expand into new industries without redesigning the page structure.

Conversion Goal

These pages should not feel like informational articles.

They should function as high-converting landing pages.

Whether visitors arrive through Google Search, Meta Ads, or Google Ads, they should quickly understand:

- We understand your industry.
- We've solved these problems before.
- We have a proven system.
- Booking a consultation is the natural next step.

Every section should move the visitor one step closer to scheduling a Free Growth Analysis.
