

Overall Industry Page

Purpose

The **Industries We Serve** page is not a services page.

Its primary objective is to communicate that Framkant Nordic understands the industries it works with and builds tailored digital growth systems for those businesses.

The visitor should leave the page thinking:

"They understand my industry."

Not:

"They're another web agency that works with everyone."

This page should position Framkant Nordic as a specialist, not a generalist.

Overall Design

The page should feel:

- Premium
- Minimal
- Spacious
- Professional
- Easy to scan

Use generous whitespace, large typography, clean cards, and subtle animations.

Avoid busy layouts, excessive icons, or overly colorful sections.

Section 1 — Hero

Headline

Industries We Serve

Supporting Text

We partner with businesses where every customer matters.

By specializing in industries with high customer lifetime value, we build complete digital systems that create long-term business growth—not just more website traffic.

Section 2 — Industry Cards

This is the primary section of the page.

Display two large interactive cards.

The cards should feel premium and encourage visitors to continue exploring.

Each card should contain:

- Large industry image
 - Industry title
 - Short description
 - List of business types
 - "Learn More" button
-

Card 1

Beauty Industry

Business Types

- Hair Salons
- PMU Studios
- Skin Clinics
- Lash & Brow Studios
- Nail Salons

CTA

Learn More

Card 2

Cleaning Industry

Business Types

- Residential Cleaning
- Commercial Cleaning
- Move-Out Cleaning
- Office Cleaning

CTA

Learn More

Design Notes

Each card should consist of approximately:

- 40% high-quality image
- 60% content

Cards should have:

- Rounded corners
- Soft shadow
- Subtle hover animation
- Slight elevation on hover

The goal is to make each industry feel like its own premium landing page.

Section 3 — Why These Industries?

Introduce a section explaining why Framkant Nordic focuses on these industries.

Display three value cards.

High Customer Value

Businesses where every new customer creates long-term business value.

Local Competition

Digital visibility creates a significant competitive advantage.

Relationship-Based Businesses

Long-term customer relationships benefit the most from structured digital systems.

Section 4 — Before vs After

Use a clean two-column comparison.

Before Framkant Nordic

- Multiple suppliers
 - No structured follow-up
 - Poor online visibility
 - Few Google Reviews
 - Manual administration
-

With Framkant Nordic

- One digital growth partner
- Automated customer follow-up
- Strong local visibility
- Continuous review generation
- Scalable digital systems

This section should clearly demonstrate the transformation.

Section 5 — Our Growth System

Instead of explaining services with large paragraphs, visualize the customer journey.

Example:

Traffic

↓

Website

CRM

Automation

Lead Management

Growth

This should be presented as a clean visual diagram.

Section 6 — Growing Into More Industries

Communicate that the company is expanding strategically.

Headline

Growing With More Industries

Text

Today we specialize in the Beauty and Cleaning industries.

As Framkant Nordic grows, we will expand into additional industries where long-term customer value and structured digital systems create the greatest business impact.

Display smaller "Coming Soon" cards such as:

- Construction
- Landscaping
- Accounting
- Dental Clinics

This creates confidence without suggesting that the company already serves everyone.

Final CTA

Headline

Is Your Industry Next?

Supporting Text

Even if your business isn't listed today, we'd love to learn more.

If your business depends on long-term customer relationships, there's a good chance we're the right digital growth partner.

Design Guidelines

Colors

- White background
 - Light gray alternating sections
 - Dark typography
 - Single accent color (Framkant Nordic brand color)
-

Typography

- Large, bold headings
 - Comfortable line spacing
 - Short paragraphs
 - Minimal text blocks
-

Images

Use authentic, high-quality photography.

Avoid generic stock images.

Each industry should feature real businesses that reflect the target audience.

Animations

Keep animations subtle.

Recommended:

- Fade-in on scroll
- Card hover elevation
- Button hover transitions

Avoid excessive motion or distracting effects.

UX Goal

The visitor should quickly understand three things:

1. Framkant Nordic specializes in specific industries.
2. The company deeply understands those industries.
3. Their business could become the next successful case study.
