

Resources (Knowledge Center)

Purpose

This page is not a traditional blog.

It is Framkant Nordic's long-term knowledge library.

Its purpose is to:

- Generate organic traffic through SEO
- Build authority and trust
- Educate potential clients
- Support the sales process
- Strengthen topical authority within every industry we serve

Every article should answer real questions that potential customers are already searching for.

This section should become significantly more valuable over time.

Resources & Insights

Supporting Text

Explore practical guides, industry insights, and digital growth strategies designed to help businesses improve their online presence, generate more leads, and build long-term growth.

Section 1 — Featured Articles

Display 3–6 featured articles at the top.

Each card should include:

- Featured image
- Article title
- Short description
- Category
- Estimated reading time
- "Read Article" button

Example Articles

- How Local SEO Works
- Why Google Reviews Matter
- Website Checklist for Local Businesses

Featured articles should appear larger than regular articles.

Section 2 — Browse by Category

Instead of one long list of articles, organize content into categories.

Examples:

Local SEO

Website Design

CRM

Marketing Automation

Google Ads

Meta Ads

AI & Automation

Analytics

Beauty Industry

Cleaning Industry

Each category should link to a filtered archive page.

Section 3 — Latest Articles

Display articles in a clean responsive grid.

Each article card should contain:

- Cover image
- Category
- Title
- Short excerpt
- Reading time
- Published date

Cards should remain consistent throughout the website.

Individual Article Template

Every article should use the same layout.

Introduction

Brief summary explaining:

- What the article covers
- Who it's for
- Why it's important

Table of Contents

Automatically generated.

Sticky on desktop if possible.

Main Content

Well-structured content using:

- Headings
- Images
- Diagrams
- Callout boxes
- Bullet lists

Large typography.

Generous whitespace.

Easy to read.

Related Services

Recommend relevant Framkant Nordic services.

Example:

Reading:

"How Local SEO Works"

Suggest:

- Local SEO
- Website Design
- Google Business Profile Optimization

This strengthens internal linking.

Related Articles

Display 3–4 related resources.

Keep visitors exploring.

Final CTA

Ready to Grow Your Business?

If you'd like help implementing these strategies, we'd love to help.

Design Guidelines

The Resources section should feel more editorial than sales-focused.

Recommendations:

- Large typography
- Excellent readability
- Wide content area
- Minimal distractions
- High-quality imagery
- Consistent article cards
- Soft hover animations

Avoid making it feel like a typical WordPress blog.

It should resemble a modern online publication.

Scalability

The developer should build this using reusable templates.

The following should be dynamic:

- Categories
- Tags
- Featured Articles
- Related Articles
- Reading Time
- Author
- Featured Image

Creating a new article should require only adding content.

No redesign should ever be necessary.

SEO Strategy

This section should become the primary SEO engine of the website.

Content should target three main groups:

Educational

Examples:

- How Local SEO Works
 - What Is Marketing Automation?
 - Why Google Reviews Matter
 - CRM Explained
-

Industry Guides

Examples:

- Digital Marketing for Beauty Salons
 - Marketing for Cleaning Companies
 - SEO for Construction Businesses
 - Website Tips for Dental Clinics
-

Practical Guides

Examples:

- Website Launch Checklist
- Local SEO Checklist

- Google Business Profile Guide
 - CRM Setup Guide
 - Automation Guide
-

Long-Term Vision

This section should continue growing for years.

Every new article should strengthen Framkant Nordic's authority, improve organic rankings, and generate qualified leads.

The goal is to create a knowledge library that becomes one of the company's most valuable long-term marketing assets.

This is not a blog.

It is a strategic content platform built to educate, rank, and convert.
