

Service Page Template (Reusable Layout)

Purpose

This page template should be reusable across every individual service page on the website.

Examples include:

- Web Design
- Local SEO
- CRM
- Marketing Automation
- AI Chat
- Google Ads
- Meta Ads
- Review Management
- Analytics & Reporting
- Future services

The overall structure should remain identical across all service pages.

Only the content, imagery, examples, and case studies should change.

This creates a consistent user experience while making the website easy to scale.

Section 1 — Hero

Every service page begins with a strong Hero section.

Left Side

- Service title
- Short value proposition
- Supporting paragraph
- Primary CTA

Example

Local SEO

Help local customers find your business when they're actively searching for your services.

Improve your visibility in Google Search and Google Maps while generating more qualified leads from your local market.

CTA:

Book a Free Growth Analysis

Right Side

Visual related to the service.

Examples:

- Dashboard
- Search results
- CRM interface
- Website mockup
- Analytics dashboard

Avoid generic stock photos whenever possible.

Section 2 — The Problem

Explain the problems businesses experience without this service.

Example:

Without Local SEO

- Low Google visibility
- Few qualified leads
- Competitors appear first
- Weak Google Business Profile
- Lost opportunities

The visitor should immediately recognize their own situation.

Section 3 — Our Solution

Explain how Framkant Nordic solves those problems.

This section should focus on business outcomes—not technical features.

Example:

How We Solve It

- Optimize your website
 - Improve your Google Business Profile
 - Build local authority
 - Increase qualified traffic
 - Continuously improve performance
-

Section 4 — What's Included

Display a clean feature grid.

Example

- ✓ Website Optimization
- ✓ Keyword Research
- ✓ Google Business Profile
- ✓ Technical SEO
- ✓ Content Optimization
- ✓ Performance Tracking

The grid layout should remain consistent across every service page.

Section 5 — How It Fits Into Our Growth System

Show how this service connects to the bigger picture.

Example:

Traffic

Website

CRM

Automation

Lead Management

Growth

Highlight the current service within the diagram.

This reinforces that Framkant Nordic delivers complete digital systems—not isolated services.

Section 6 — Business Case

Each service page should feature at least one relevant case study.

Structure:

Client

Challenge

Solution

Results

Only the content changes between services.

The layout remains identical.

Section 7 — Why Framkant Nordic

Explain why businesses choose Framkant Nordic instead of a traditional agency.

Examples:

- We build systems—not isolated services.
- We take full responsibility.
- We continuously optimize.
- We focus on long-term partnerships.
- We only succeed when our clients succeed.

This section should be identical across every service page.

Section 8 — FAQ

Include service-specific questions.

Examples:

- How long does implementation take?
- When should I expect results?
- Do I need an existing website?
- Can this work with my current systems?
- Is this included in the Growth Partnership?

Only the questions and answers change.

The design remains the same.

Section 9 — Related Services

Recommend complementary services.

Example:

If viewing **Local SEO**, display:

- Web Design
- Google Ads
- CRM
- Review Management

This improves internal linking and user navigation.

Section 10 — Final CTA

Finish every service page with the same strong call-to-action.

Ready to Grow Your Business?

Let's discuss how this service fits into your digital growth strategy.

Primary CTA:

Design Guidelines

Every service page should use the same layout and spacing.

The following elements should remain consistent:

- Hero structure
- Typography
- Section order
- Card styles
- Icons
- Buttons
- Animations
- CTA placement
- White space
- Color palette

Only these elements should change:

- Copy
- Images
- Illustrations
- Business cases
- FAQ content
- Feature list

This template should serve as the foundation for every current and future service page, making the website highly scalable while maintaining a consistent premium user experience.
